PROFESSOR WOOD'S

HAIR RESTORATIVE.

It has Worked Miracles!

THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their locks are concerned, does not admit of doubt besides, it will cure every possible disease of the scalp whether developed as dandruff itching or in the shape of cutaneous eruptions—even scald head—and in no possible case will it fail of curing, as if by magic nervous or periodical Head ache, and if used twice a week by the young regularly it will preserve the color and keep the hair from falling to any imaginable age Read and judge

Milford Worcester Co. Mass Nov 1855

PROF O J WOOD—Dear Sir —I take pleasure in bearing voluntary testimony to the magic effect of your wonderful Hair Restorative. As far back as 1836 my hair commenced falling off until the top of my scalp became bald and smooth as glass and it has continued to fall for a great many years ... many celebrated preparations for restoring ... Seeing your advertisement I was induced to give your article a trial and to my utter astonishment I found after a few applications that my hair became firmly set, and assumed a glossy and beautiful appearance ... had used a quart bottle my bald head was covered over with a young and vigorous growth of hair which is now from one to two inches and a half in length and growing fast

Yours truly
HENRY GOODRICH

Charlestown Mass Aug 9 1855

GENTS —Nothing but a duty ... that I feel ... others that are afflicted as I have been would induce me to give this public acknowledgment of the benefit I have received from Prof Wood's Hair Restorative. When I first commenced using it my hair was quite gray, and in spots entirely bald. I have now used the Restorative ... and my hair ... changed to its original color brown and the new hair is over three inches in length ... I have also been much gratified at the healthy moisture ... which before was dry, and it has ceased to come out as formerly

Respectfully yours &c
MRS R A STODDARD

From Mrs Ingalls a well known nurse in Boston

Boston Oct 19, 1855

GENTS —At your request and being highly pleased with the effects of the Restorative I am free to state that my hair had become quite thin and entirely white I have for the last five years been in the habit of using dye but hearing of the extraordinary effects of this article I was induced to try it. My hair has been restored to its original thickness ... for which is light brown. Yours respectfully

MRS INGALLS

The following is from the Pastor of the Orthodox Church Brookfield

Brookfield Mass Jan 12 1855

PROF WOOD—Dear Sir—Having made trial of your Hair Restorative it gives me pleasure to say that its effects have been excellent in removing inflammation dandruff and a constant tendency to itching with which I have been troubled from childhood and has also restored the hair which was becoming gray to its original color. I have used no other article with anything like the same pleasure and profit

Yours truly
J K BRAGG

(From the Jersey City Telegraph.)

WHAT IS IT?—This Wood's Hair Restorative—Is a question asked ... by hundreds. We answer without hesitation or fear of contradiction that it is the only article known which will do all it promises ... man hair ... but a speedy and efficacious Restorative.

(Late Agent of U S Patent Office Washington under the Act of 1837)

No. 76 State Street opposite Kilby St., BOSTON

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States also in Great Britain France, and other foreign countries. Caveats Specifications Assignments and all Papers or Drawings for Patents executed on liberal terms and with despatch. Researches made into American or Foreign works to determine the validity or utility of Patents or Inventions and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington

This Agency is not only the largest in New England but through it inventors have advantages for securing patents or ascertaining the patentability of inventions unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe and can prove that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe render him able beyond question to offer superior facilities for obtaining patents

All necessity of a journey to Washington to procure a Patent and the usual great delay there are here saved inventors

Testimonials

During the time I occupied the office of Commissioner of Patents R H EDDY ... Boston, did business at the Patent Office as Solicitor for procuring Patents.—There were few if any persons acting in that capacity who had so much business before the Patent Office and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most capable ... in the United States ... I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

How it is Received. The Courier and Enquirer forcibly cites the fact that the great State of New York has met the declaration of the party majority of the Court that a black man cannot be a citizen, by the passage of an act in its Legislature, with an overwhelming majority, designed to remove every restriction which had heretofore operated to disfranchise the great body of the colored men of the State.—And the great State of Pennsylvania meets the declaration of the party majority of the Court that Congress has no power to exclude Slavery from the Territories, by nominating for its Chief Magistrate the man with whose name, above all others, the opposite doctrine is most closely identified. David Wilmot is unhesitatingly put forward by the conjoint action of two great parties in Pennsylvania as the candidate for the highest office in the gift of the State, through whose election the continued adherence of the people to the principles of the Wilmot Proviso, in spite of the political decisions of a judicial tribunal, shall be most clearly and emphatically expressed. Certainly these things are not a very encouraging foretaste of the *settlement* which it was calculated the extraordinary action of the Supreme Court would quickly effect. They are an unmistakable indication that this judicial action will serve only to deepen and intensify the popular feeling against the changes which it is sought to introduce into the theory and practical working of our Federal Government."

A Partition of Nicaragua. Information was received by the last steamer that a partition of Nicaragua has been arranged by a convention in session at San Miguel, in the Republic of San Salvador, and it has been determined to divide the State between Costa Rica, Honduras and San Salvador. The Nicaraguans, it is said, consent to the arrangement. Their dismembered country will be garrisoned by troops from the neighboring States to preserve order, and after a specified time it will be reunited and placed once more in the position of an independent Republic. It is also stated that on the 22d of December last, the National Nicaraguan government issued a decree reversing all the acts of the Walker Government, from the 4th of November, 1855, to the 12th of June, 1856, including the decree revoking the charter of the old Accessory Transit Company.

The following is the basis of the settlement:—To Costa Rica will be annexed the territory on both sides of the San Juan River and the territory lying between Lake Nicaragua and the Pacific, as far north as Massaya. Chentales will be assigned to Honduras, to which country by its situation and geographical peculiarities it naturally belongs, and the remainder will be given to San Salvador, which, more than either of the other States, needs territory, on account of the comparatively dense population and limited extent of soil, as she is by far the smallest of the Central American Republics.

Capt. Wm. A. Parker of the brig Sea Foam of this city, at Salt River, Jamaica, on the 23d of February, was severely burned on his side and arm, from a kettle of boiling pitch which took fire and which he endeavored to extinguish. His arm was subsequently amputated, but he died in consequence of his injuries, at Kingston, Ja., on the 11th of March. Capt. Parker belonged on Long Island, Penobscot Bay, and leaves a family.

Young Snodgrass in Cuba. A somewhat adventurous Yankee has made his appearance in Cienfuegos, Cuba, with a banjo, in the character of young Snodgrass. He is reciting, on authority, the fullest particulars of the Burdell murder case, to the wonder of immense crowds, picking up, at the same, no little change.

Lectures from Dr. Hayes.

It will be seen by the following correspondence, that Dr. Isaac I. Hayes, who was surgeon of the Kane Expedition, has consented to deliver in this city his very interesting lectures, descriptive of some of the more remarkable events and discoveries of that expedition. This announcement, we have no doubt will be very gratifying to our citizens. The tickets to the lectures will be but 25 cents, at which price Norombega should be filled:

Boston, March 30th.

Gentlemen: I can but accept the invitation, with which your kind partiality favors me. It will afford me much pleasure to meet you on the evenings named, and I thank you most sincerely for your warm expressions of friendly regard.

I have the honor to be, gentlemen, with great respect,

Moving of the Ice—Damage to Vessels.—The freshet in the Kenduskeag has been strong enough to break up ice fifteen or eighteen inches thick. Yesterday forenoon the jam started several times below Kenduskeag bridge, and with such force as to break the fastenings of the schooner Hartford lying in the stream,—carrying her afoul of the Adeline Hamlin, breaking her jib-boom, and lifting her bow so as to break her rudder and stern-post by her taking ground aft. The taffrail rail of the Hartford was broken.

Both vessels were thus left in the jam in a hazardous position.

The Choral Society. In our notice yesterday, of the forthcoming Concert by this Society, we inadvertently did some injustice, by omitting to mention that Mr. Solon Wilder, well known as an excellent and successful teacher, has been a Director of the Society until within six or eight weeks. His other engagements obliged him to retire in February, since which time Mr. Tufts has been sole Director.

New York city, with a population of 629,000, has church room for only 197,000 persons, leaving 432,000 without any church accommodations, did they wish for them. Brooklyn, with a population of 208,000, has sittings for only 71,000, leaving 137,000 unprovided for; and thirteen of the principal cities of this country, with an aggregate population of 2,018,785, have church sittings only for 952,436, leaving a deficiency of 1,276,139.

The Washington correspondent of the New York Evening Post says it is the intention of ex-President Pierce to buy a large farm somewhere in New Hampshire, and devote the rest of his life to the raising of horses and stock cattle.

☞ We are informed that the hack which ran afoul of the Monson stage on Friday evening, did not belong to the Franklin House, as was stated in the Whig on Saturday morning.

A Kentucky slave is at Albany soliciting funds to buy himself. He comes to the free States under bonds to return to Kentucky, given by white men to his owner.

The Mormons. Letters published in the San Francisco Herald confirm the destruction of the records of the U. S. Courts in Utah, by the Mormons. A letter from Salt Lake City says:

"Early in January, and just in advance of the meeting of the Supreme Court, a party of the Mormons in high standing in the church, and under the advice of Brigham Young, repaired to the office of the Hon G P Stiles, one of the United States District Judges, the law office of I S Williams, Esq. and the office of the Clerk of the Supreme Court, and took therefrom all the papers belonging to the Supreme Court, consisting of records, dockets, opinions, filed away, together with nine hundred volumes of the laws, furnished by the federal government for the use of the Territory of Utah. The reason given for this treasonable act was that Congress would not admit them as a State, and that they would not allow the federal officers to remain in the Territory; and that what officers were now in the Territory must leave as soon as grass grows, or he will send them to —— across lots."

A letter W. W Drummond of San Francisco, says these records and books were burned in the city of Great Salt Lake.

It is also asserted that the proceedings of the United States Court are nullified by Brigham Young, who stiles it a "Gentile Court," and declares that it shall not inflict punishment on the Mormon Saints. Several murderers in this way escaped their deserts after being convicted. The authority of the United States is openly defied, and the Mormons declare that they will not obey nor be governed by any one unless he is a Mormon. It is reported that five young men, overland emigrants from Missouri to California, are now lingering out a weary life of misery and wretchedness in the Utah penitentiary for the crime of having spoken against Mormonism.

The Sound of Sunset.—On the arrival of an emigrant ship some years ago, when the North Carolina laid off the Battery, an Irishman hearing the gun fired at sunset inquired of one of the sailors what that was?

"What's that? Why, that's sunset!" was the contemptuous reply.

"Sunset!" exclaimed Paddy, with distended eyes; and does the sun go down in this country with such a clap as that?"—*Porter's Spirit.*

Ship Boys.—The practice of taking out from two to four boys on our large merchantmen destined for long voyages, is continued without abatement, and among those sea captains and ship owners most interested in elevating the standard of seamanship and the character of our commanders, the system is very popular. Common sailors, who are Americans, by birth, are almost unknown, and a large majority of our officers and many of our commanders are of foreign birth; but such is the preference for Americans, that an intelligent lad, with the requisite moral and physical qualifications, can be almost sure of prompt and rapid promotion. In case an officer is disqualified by any cause for the performance of his duty, the boy is preferred to a foremast hand, as a candidate for the vacancy.

So well is this beginning to be understood, that whenever a first class California or China ship comes to port, there is a general scramble for the "boys' house." The Great Republic, which sailed a few days ago, turned off several scores of applications, and the same is true of many other ships. On shipboard, the boys are considered as exclusively under the captain's orders, and so exempt from the rudeness of inferior officers, and enjoying every facility for learning their profession. Yet their position is no sinecure. They are expected to furl the light sails, clear up the decks, and lend a hand wherever their services are needed.—When qualified to perform the duties of a full-grown man, they do men's work, but still retain the boys privileges.

In former years, the boys were the lowest in the grade of seamen, and were obliged to do the most repulsive and degrading work, but now their position is essentially changed, and may be regarded as virtually a school for seamanship. On many ships, the boys are required to regularly devote a portion of their time to the study of practical navigation, with the use of the ship's instruments. Good results have already been realized. In one instance, a valuable ship and cargo was almost wholly deserted by her seamen, on arriving at San Francisco; but by the aid of the boys, she was enabled to pursue her voyage—preventing a large pecuniary loss on the part of those interested.

With nautical schools in our large seaports, in conjunction with this voluntary system of apprenticeship, much may yet be accomplished for the promotion of the great interests of commerce.—*N Y Journal of Commerce.*

Legal Tender. The law regulating the payment of debts with coin, provides the following coin to be legal tender:

1. All gold coins at their respective values, for debts of any amount.
2. The half-dollar, quarter-dollar, dime, and half-dime, at their respective values for debts of amounts under five dollars.
3 Three cent pieces for debts of amounts under thirty cents; and
4. By the law just passed, we may add one cent pieces for debts of amounts under ten cents.

By a law of Congress, passed some four or five years ago, gold, instead of silver, was made the legal tender for large amounts. Those who, to get rid of large quantities of cents and small coin, sometimes pay bills with it, to the annoyance of the creditor, will perceive that there is a stoppage put to that antic by law.

Strange Accident. A strange accident occurred in Hamilton, Canada, on Thursday last:

"A French Canadian woman, named Mary Jewiry, was drowned under very peculiar circumstances yesterday. The deceased appear to have been walking along a slight embankment on the side of the street, and having slipped and fallen with her face in a posthole full of water, was drowned. It is somewhat singular that an accident of the kind should have occurred at mid-day on one of our principal streets without attracting the notice of some passer-by, but such is the fact.

A Malignant Wife. A respectable Virginia farmer, named Babb, and his son, were arrested in Petersburg, Va., on Monday, for fraud practiced upon a merchant in selling him lard with stones embedded in the centre of the firkins. It was in said in evidence that the wife of the elder Babb, and the step mother of the young man, had placed them there in furtherance of a malicious threat to get her husband, with whom she did not live happy, in trouble. The money was thereupon refunded and the case dismissed.

Costly Bridges. The suspension bridge about to be erected over the Mississippi at St. Louis will, it is said, cost about two millions of dollars; it will be about eighty feet above high water, and over a mile in length, and the bottom of the towers will be sixty feet below water. It has been stated that this structure will be the most costly of any of its kind in the world. There are, however, many bridges in the world which have cost much more money than will that at St. Louis. Three of those crossing the Thames at London, cost—the London bridge ten millions of dollars, the Southwark eight millions, and the Waterloo five millions. The celebrated tunnel under the Thames at London cost over three million dollars.

Legislative.

Monday, March 30.

Finally Passed—Resolve relating to the publication of the Revised Statutes; for the encouraging of the building of mills in Letter C. Range 2.

Mr. Herrick called up the report of the committee on Banks and Banking, granting leave to withdraw on petition of Maritime Bank, Bangor, and the same was recommitted. Also, on motion of the same Senator, the report of same committee granting leave to withdraw on petition of Stockholders of same bank for increase of capital was re committed.

House—*Finally passed*—Resolves relating to the publication of the Revised Statutes; resolve for encouraging of the building of mills in Letter C. Range 1.

An act to establish a standard weight for the sale of grain and carrots, being on its passage to be engrossed.

Mr. Vinton moved to amend so as to make the standard weight of oats at 30 pounds per bushel.

The amendment was adopted, and the bill was further amended by fixing a bushel of carrots at 50 pounds. The bill was then passed to be engrossed.

On motion of Mr Weed the report of the committee on Railroads, Ways and Bridges, giving leave to withdraw on the petition of Samuel Veazie and others, was taken up and the report was accepted.

Mr Hammatt moved that the vote of the House, whereby is passed to be engrossed the bill in relation to disclosures of poor debtors, be reconsidered.

The motion to reconsider prevailed, Yeas 63 nays 42.

Mr Gilbert of Bath, moved that the bill be laid on the table, and the motion prevailed, 49 to 34.

Jessie Fremont, the accomplished woman whom so many thousand people voted last fall to make the lady of the White House, was noticed yesterday at her seat among a group of ladies who were learning how to use a sewing machine.—*N. Y. Times.*

To get a glass stopper from a bottle into which it is tightly wedged.—Lay the neck of the bottle upon a stone, then take a hammer and a few well directed blows will generally do the business.

Two sharp hotel thieves, named Wilson and Chas. Young, alias Geo. Kuhn, who had made some extensive hauls at the Gilmore and Barnum houses, at Baltimore, of money and jewels,—have been arrested at New York and forwarded to Maryland, where indictments await them. They stole $8000, and a portion of the property was found in their possession.

Fire.—The dwelling-house of Capt. Benjamin Hillier of Waltham was destroyed by fire the 14th inst., with most of the furniture. The fire is supposed to have communicated through a defect in the chimney. Loss $1,200. Insured for $600 in the York Co.—*Ellsworth American.*

THEODORE, CHARLIE, AND GRACE.

[Died, at Brooklyn, January 9th, Theodore Swan, aged 5 months and 10 days, March 5th, Charles Haddock, aged 5 years and 4 months, March 23d, Grace Webster, aged 2 years and 7 months, only children of Theodore and Grace W. Hinsdale.]

And first of all the Baby went, sweet messenger! to throw
Wide open heaven's golden gates, through which they all must go!
So little time had passed away since down to earth he flew,
That all the path which upward led, right easily he knew.
And so he closed his violet eyes one still and starry even,
And, glad to spread his angel wings, flew quickly back to heaven!

And he, the Boy of noble brow, and earnest, manly ways,
For whom, with nameless hope and pride, we hailed the coming days,
What moved him to lie down so young upon a couch of pain,
And fold his hands in sleep from which he ne'er could wake again?
How well we loved him! All we prized we would have flung away
With joy, to have that blessed child awhile on earth to stay,—
But the Good Shepherd wanted him, and so, with tender tears,
We gave into His bosom the hope of future years!

And Grace, sweet Grace, the pensive, the quiet little girl,
(They should have called her Margaret, her mother's purest pearl.)
It was not strange that she should go so lightly from us all,
For o'er the crystal battlements she heard her brothers call,
So, peacefully she closed her eyes as they had done before,
And passed at holy midnight through Eden's radiant door!
And as she lay at morning so tranquil and so fair,
With hands upon her bosom, and parted auburn hair,
Our tears were half of gladness that the three the Lord had given,
Away from earthly sorrow, were safe with Him in heaven! Dean.

OXYGENATED BITTERS.

BOSTON, November 1, 1850 *Gentlemen* —Although averse to almost everything in the form of patent medicines, I would most cheerfully add my testimony in favor of your invaluable remedy for dyspepsia and general debility.

The course you have pursued in submitting Dr. Green's formula to a chemist of established reputation with the medical profession, merits the approval of scientific men and entitles your Oxygenated Bitters to the confidence of the public. I have used the medicine for some six months past and recommended it to many others, who will agree with me in saying it surpasses all other remedies known for the relief and cure of the most distressing complaints arising from weakness and any derangement of the digestive system

With great respect your obedient servant,

DENTAL NOTICE.

GUTTA PERCHA vs. PURE GOLD.

In answer to numerous letters of inquiry by mail we would say to our friends and the public, that we have tried the Gutta Percha and found that in firmness and tastelessness it is all that it was recommended. And as it was well known that the Gutta Percha was capable of resisting the action of the strongest Mineral acids, not excepting the Nitric, Muriatic or Aqua Regia, which alone dissolves Gold, it was supposed that it would be equally durable as a basis for artificial teeth But we find that Gutta Percha is itself dissolved by the saliva of the mouth, and consequently it soon wears out. Thus our experience proves that pure Gold makes the most permanent and enduring and therefore the cheapest as well as the most beautiful foundation for artificial teeth.

We are constantly putting up whole and partial sets of teeth on pure Gold plate, with single teeth or continuous block or gum teeth of *our own manufacture* combining the very latest improvements in Dental Science, and which for beauty of appearance perfect finish, closeness of fit and ease in wearing are said by our customers to have been heretofore unknown in this part of the country And we would invite all who are in need of Dental work to visit us before going to Boston.

GROVER & BAKER'S

New Family Sewing Machines!

PRICE $75.00.

Reasons

Why Grover & Baker's SEWING MACHINE —Is— Universally preferred for Family Sewing.

1st. It is more simple and easily kept in order than any other Machine.

2d It makes a seam which will not rip or ravel though every third stitch is cut.

3d It sews from two ordinary spools, and thus all trouble of winding thread is avoided, while the same Machine can be adapted at pleasure, by a mere change of spools, to all varieties of work.

4th The same Machine runs silk, linen thread, and common spool cotton, with equal facility.

5th The seam is as elastic as the most elastic fabric. so that it is free from all liability to break in washing, ironing, or otherwise.

6th. The stitch made by this Machine is more beautiful than any other made either by hand or machine.

We have been appointed agents for the above Machines, and have them for exhibition and sale at our store, where the public are invited to examine them. FENNO & HALE. feb2

G. W. STONE'S LIQUID CATHARTIC —AND— FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe and agreeable physic ever offered to the public.

THE necessity of such a medicine has long been felt both by the heads of families and physicians. Its advantages over cathartics given in the form of Pills or Powders must be obvious to every intelligent person. It operates more immediately and effectually upon the system and at the same time is infinitely less difficult to administer, being [illegible] agreeable to the taste. It not only produces all the effect where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, Regulates the action of the Liver, frees the stomach from Bile, invigorates the whole Nervous System, and removes those distressing pains, such as *Rheumatism, Neuralgia, Tic Doloureux, Gout, Pain in the Head, Side, Stomach, &c.*

It may also be relied upon in all diseases of the Bowels—DYSENTERY, DIARRHŒA, AND CHOLERA MORBUS, yield at once to its magical influence. Again we repeat, TRY IT!—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success, despair not—but try this now at hand. Are you suffering from Scrofula, etc. bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness, three bottles will effect all that you desire. If you are afflicted with Rheumatic Neuralgic, or other [illegible] pains, two bottles will free you from them.—All humors will be eradicated from the blood by the use of from one to six bottles. In short if you require a physic for any purpose, this is the most reliable, safe, and agreeable in the taste that has ever been placed within the reach of the public.

PRICE $1,00.

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

ONLY ONE BOTTLE —OF— DR. SANFORD'S INVIGORATOR OR LIVER REMEDY!

IS REQUIRED TO CURE ANY ONE TROUBLED with Liver Complaints, unless the most desperate of cases, when the second bottle will, with scarce a single failure, restore the patient to health and vigor. We wish to call the attention of all to these facts, that the Invigorator is compounded by a physician, who has used it in his practice for the past 20 years, with a success almost incredible, and that it is entirely vegetable, being composed wholly of gums. Some idea of the strength of these gums may be formed when it is known one bottle of the Invigorator contains as much strength as one hundred doses of calomel, without any of its deleterious effects.

One bottle is the surest thing known to carry away the bad effects of mineral poison of any kind.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice, removes all yellowness or unnatural color from the skin.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring will prevent nightmare.

One dose taken at night loosens the bowels gently and cures costiveness.

One dose taken after each meal will cure dyspepsia.

One dose of two teaspoonful will always relieve sick headache.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.

Only one dose immediately relieves cholic.

One dose, often repeated, is a sure cure for cholera morbus, and a sure preventive of cholera.

One dose taken often will prevent the recurrence of bilious attacks, while it relieves all painful feelings.

One or two doses taken occasionally is one of the best remedies for a cold ever known.

Thousands of Cases of inflammation & weakness of the lungs have been cured by the Invigorator.

One dose taken a short time before eating, gives vigor to the appetite, and makes food digest well.

One dose, often repeated, cures chronic diarrhea in its worst forms, while summer and bowel complaints yield almost to the first dose.

One or two doses cures attacks caused by worms, while for worms in children, there is no surer, safer and speedier remedy in the world, as it never fails.

There is no exaggeration in these statements. They are plain and sober facts, that we can give evidence to prove, while all who use it are giving their unanimous testimony in its favor.

We wish all who are sick and debilitated to try this remedy, and test it thoroughly, and any who are not benefitted by its use we should like to hear from them, as we have yet to bear from the first person who has used a bottle of Invigorator without receiving benefit, for there are such astonishing medicinal virtues in it, that all, no matter how long they have been affected, if their complaint arises from a deranged liver, will be benefitted, if not entirely cured.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in contrivance and workmanship. A perfect Sewing Machine kept employed affords a clear profit of $1000 a year, but an imperfect one is a cause of constant vexation and loss. The entire *reliability* of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, but to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

New machines, of the latest improved style will be exchanged on liberal terms for old sewing machines, of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO

THE GREATEST MEDICAL DISCOVERY Of the Age.

Dr. KENNEDY, of Roxbury, has discovered in one of our *common pasture weeds*, a remedy that cures

EVERY KIND OF HUMOR;

From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get, and enough of it.

DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over ten years dessert spoonful—Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

The Principal Office for the State of Maine and the British Provinces, is at the Drug and Medicine Establishment of H. H. HAY, 15 & 17, *Market Square, Portland, Maine*, to whom all orders should be addressed. Sold by respectable Druggists throughout the United States and British Provinces.

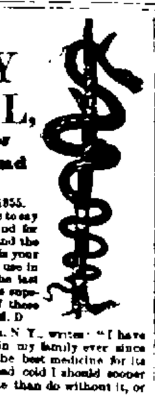
AYER'S CHERRY PECTORAL,



FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, Mass., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, Miss., Feb 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs, less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, Pa., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE CO., IOWA, writes Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption [illegible]

To Prejudice and Empiricism!

OLD DR. CULVERWELL'S

Member of the Royal College of Surgeons in 1824, Licentiate of the Hall (1824) and 28 years Medical Referee, &c.)

Radical Regenerator,

FOR SEMINAL WEAKNESS.

In all its forms, as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Virility, Impotency, and all diseases arising from early indiscretion.

This excellent Remedy, discovered by the world renowned DR. CULVERWELL, in London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues. Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to, medical, surgical or otherwise, to arrest and to cure this awful disease. A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world. The heavy expenses incurred in bringing this article before the public could not be risked, were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by one person would, through recommendation, result in an eventual sale to many.

DR. CULVERWELL's admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully. Price $2, on the receipt of which it will be forwarded *by mail*, free of postage, to any part of the country. Address, Messrs.
